# EZI ON THE BACK

# EZI-DEPLOY™

Reel Tech's ergonomically designed hose reels

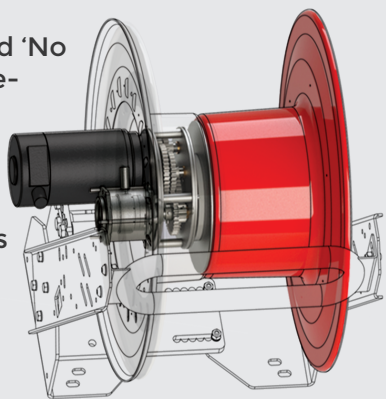

Auto declutching systems on all Fire Dog™ reels reduce effort required for payout, even on the largest and longest hose lengths clutch systems, offering smooth reel operation, and prevent excessive force that can prematurely damage equipment.

## EZI-DEPLOY™

### Auto Declutching System

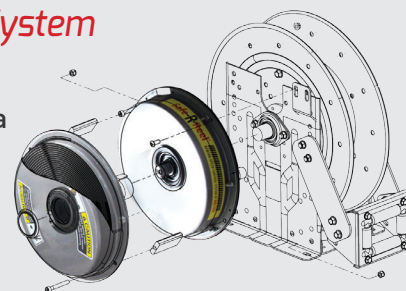

Reel Tech's patented 'No chain/sprocket' Safe-R-Reel™ gearbox with integrated clutch system, EZI-Deploy™ dramatically reduces hose payout force minimising strain injuries.

## Safe-R-Reel™

### Speed Control Drive System

Easily fitted to spring powered reels, ensures a controlled rewind speed in event of operator losing control of hose during rewind.

## Reel-In-Control™

### Wireless Remote Control

Cut response times and increase safety with single-operator technology

**FIRST**  
IN REEL SAFETY  
TECHNOLOGY

## FlatWinder™

Automatic hose layering technology efficient, jam-free layering of hose during storage.
